# PRINCIPAL'S ADDRESS

Dear Readers

*“All the world's a stage. And we are merely players”*

*-William Shakespeare*

A school is one of the first and most essential stages for an individual where one shall learn once and then get trained for the final and bigger acts later in life. We as tutors and guides, simply play our role in being the path enlighteners, enabling the children to trudge along until they find their confident footing.

I feel proud and congratulate my staff and the students, that they ebulliently try to make this journey together, successful in proving themselves worthy as smart Samaritans.

Our school magazine would be a nice tool to help you to get the glimpse of monthly activities and achievements of the students. I am confident that the quality and variety of contents would not only be informative but also impressive and enjoyable. In this pursuit of excellence, I appreciate our parent fraternity for supporting the school in every aspect.

I further laud the efforts of our teachers for giving their best in bringing out the supreme in each child.

I express my heartfelt gratitude to the Management for their reaffirming unconditional support rendered at all times that assures peak performance without any compromises.

Lastly, I wish you all good luck and let's work harder to achieve bigger and better milestones in the coming years. Remember, success is not final. Success is not resting on your laurels, but finding new laurels to rest upon.

Best Wishes!

Regards  
Principal  
Seema Behl

Working on the same notion, Grade Nursery teachers planned a handprint activity on the topic of animals for their students on 9 September 2022.

The students were guided to make beautiful Animals with the help of hand print, water colours and paintbrush. This activity introduced a more concise method of painting with little ones, as they can think about what colours can go where on their hands and how to use fingerprints to add simple but effective details.
