

# SAKAAAR

*April & May  
2023-24*

**Together Towards Tomorrow**

**K.R.MANGALAMWORLD SCHOOL,  
VAISHALI**

# PRINCIPAL'S ADDRESS

*“The true sign of intelligence is not knowledge but imagination.” – Albert Einstein*

*‘Spread your Wings’, ‘Soar in the Sky’ are aphorisms to encourage you to go beyond your comfort zone. But that is never needed, for in the very simple life you may lead, you will find the same euphoria if you fill every moment with the zest and passion that differentiates living from merely existing. The role of a school is not only to pursue academic excellence, but also to motivate and empower its students to be lifelong learners, critical thinkers, and productive members of an ever-changing global society. At K.R.Mangalam World School, Vaishali we provide an atmosphere to our students for multifaceted development, where children are encouraged to channelize their potential in the pursuit of excellence. Imagination is critical in child development as it fosters cognitive and social development. It is the door to possibilities. As firm advocates of this ideology, we constantly endeavour to foster tinkering and creative thinking in all our learners.*

*Keeping up with the changing scenario of education, we believe in developing active and imaginative individuals out of all our students. For this, together the team has re-imagined learning at K.R.Mangalam World School, Vaishali.*

*My philosophy resonates deeply with the words of Vince Gowmon, "When we make play the foundation of learning, we teach the whole child." As an educator, I have not only observed but also realized the importance of play as an essential tool to facilitate learning in the classroom. Children learn best through play. It is the highest form of research leading to exploration, curiosity, investigation, experimentation, and discovery.*

*The pages of these magazine offer glimpses of students who have become achievers as they strived for what may have seemed unattainable, but which they conquered through perseverance, hard work and the courage of their convictions. The collaboration of the multifaceted, zealous students, the indefatigable, dedicated faculty, the cooperative, supportive parents under the guidance and direction of our Chairman are the secrets behind the glory and magnificence of K.R.Mangalam World School, Vaishali. Together we can only move forward!*

*Principal  
Seema Behl*

# From the Editorial

***Dear Readers***

*“You write to communicate to the hearts and minds of others what's burning inside you, and we edit to let the fire show through the smoke.” - Arthur Plotnik*

In its early stages, human mind is a coarse grain of sand, recurring a nurturing shell of broad spectrum of earning opportunities and experiences. From news and current events to science, the arts, and culture, we cover a wide range of subjects in our articles. This keepsake is in fact a sincere endeavour to help our developing talents express their creativity and gain the skill of being aware since we think that our success depends on our capacity for perception, observation, and exploration. We are confident that the readers minds will be stimulated and transported to a surreal world of unbridled excitement and pleasure by our young friends optimistic attitude, hard work, perseverance, and creative ideas. The school magazine is a platform for the students to express their creative pursuits which develop originality of thought and perception in them. The content of the magazine reflect the wonderful creativity of thoughts and imagination of our students.

This magazine is more than just a compilation; it is a timeless masterpiece waiting to be unwrapped and savoured.

Happy Reading!!

*Ms. Nishtha Asija (Executive Editor)*

*Ms. Sonam Kumar (Editor)*

*Ms. Anupriya Saini (IT Department)*

# ACHIEVEMENTS

We are proud to share that our Principal, Ms. Seema Behl has been felicitated with the prestigious 'Global Edu Icons Award' of the year 2022-23 by the GSCL Group honouring her Academic Excellence, Innovative Practices carried out under her flagship and for leading the Techno Smart School of the Year.

*We are thrilled to announce that our respected Principal, Ms. Seema Behl, has been awarded the prestigious title of Asia's Greatest Principal 2020-2021 by Humming Bird Education Ltd. This is a remarkable achievement and a testament to her leadership, dedication, and contributions to the education sector. Her recognition is a source of inspiration for all of us to learn and develop ourselves under her guidance and mentorship. Congratulations on this well-deserved recognition!*

## CONGRATULATIONS

Girls Football Team shines with a runners-up trophy in DPSG CUP 2023, U-15 Category

Sara Jangra, Grade 9th won the **'Best Emerging Player'** of the tournament

We are proud to announce that our U-15 Girls Football Team put in a fantastic performance at the DPSG CUP 2023, organized by the DPS Society from 17-21 April at DPSG International. The team secured the runners-up trophy, while Sara Jangra of Grade IX was recognized as the 'Best Emerging Player' of the tournament. Congratulations to the team and Sara for their outstanding achievement!

The joy of learning and playing in school with friends is what the fondest memories are about. Here are the glimpses of the first day of Grade Nursery.

*Activities*

# SPACE ACTIVITY

**“Equipped with his five senses, man explores the universe around him and calls the adventure Science”-Edwin Hubble**

Astronomy facilities support many critical functions of space exploration and space science. Humankind has looked to the heavens for millennia in search of meaning and understanding about how the Universe works. The endless frontier of the cosmos has spurred our curiosity to explore and develop scientific methods to do so, with wide-ranging impacts on our society. Celebrating the exploratory spirit of Astronomy, ‘Mass Solar Observation’ was conducted on 25th & 26th April during Global Astronomy Month. Students of Grades III –VIII and faculty members observed the Sun through telescopes inbuilt with solar filters. It was a fascinating and educational experience and a great way for students to learn more about astronomy and our nearest star.

# EARTH DAY

## GRADE-NURSERY

*“An understanding of the natural world and what’s in it is a source of not only a great curiosity but great fulfillment.” —David Attenborough*

Earth Day encourages us to reflect on what we are doing to make our planet a more sustainable and livable place. It is a testimony that even one person can make a global impact in a positive way. Echoing the same, ‘Earth Day’ was celebrated by Grade Nursery. They celebrated this day by making Earth headgears and posters to raise awareness of the need to protect Earth’s natural resources for future generations.

# KIDDIES KITCHENETTE – ‘MOJITO’ PRE-PRIMARY

*“A sound health is the product of healthy cooking.”*

With the onset of Summer, it gets essential to refresh and replenish our body with some cool beverages to beat the heat.

Keeping this in mind, the students of Pre-primary participated in Kiddies Kitchenette activity on 28<sup>th</sup> April 2023 in which they prepared a lip-smacking summer drink-MOJITO.

Our little munchkins enjoyed this splendid activity with great zest. They prepared Mojito by squeezing lemons, adding sugar and soda, sprinkling mint leaves and stirring the mixture with their little fingers. One could sense the excitement around and their sparkling eyes were worth watching as the delicious Mojito tickled their taste buds on sipping it up.

The activity gave our young learners a hands-on experience of making a glass of Mojito and they relished every bit of it. The task added to the sensory learning of our little ones and reinforced their fine motor skills in a fantastic way.

***Let's start the process!!!***

***Mojito in the making***

***Little munchkins stirring the mixture***

***Time to relish the drink***

# LABOUR DAY

## GRADE-II

Labor Day quotes serve as a reminder of the importance of hard work, the value of workers in society, and the achievements made in the labour movement over the years. We choose the first day of May to extol and share joviality with those baseline workers whom we catalogue as labourers. K.R. Mangalam family is constantly on its toes to ensure children grow up to be empathetic human beings who are high on emotional quotient. The school observed 'Labour Day' celebrations to inculcate respect for all the members of society and value them for the contribution they make.

To pay tribute to all the workers the students of Grade II celebrated 'Labour Day' with utmost enthusiasm to appreciate and acknowledge the selfless service of the workers.

# FAMILY DAY

## GRADE-II

*'Family is a single word with many meanings.'*

Keeping in tune with the thought, students of Grade II got an opportunity to not only exhibit their creativity and ingenuity but also understand how diverse families can be. Students shared and identified the type of family they live in, also presented each member of their family in their beautifully crafted work.

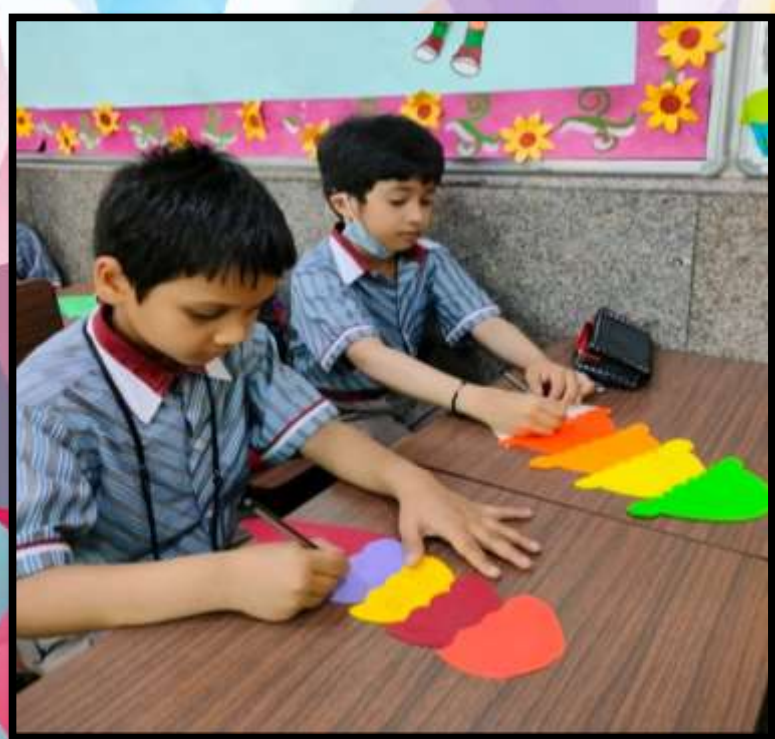

# PLACE VALUE ACTIVITY GRADE-II

*“Numeracy involves more than mastering basic mathematics”*

Mathematics is the language of the universe. So, the more equations you know, the more you can converse with the cosmos. Following this notion, Grade II students enthusiastically participated in the ‘Place Value Sundae’ activity. The activity was about place value that captures their imagination while helping them understand how place value works, why it matters and its various forms. In a nutshell, the activity gave students a platform for the application of knowledge such as problem-solving, estimation and concept solidification.

# ACTIVITY- ALL ABOUT MYSELF GRADE-II

*“I’m not ‘finding myself’ – I’m ‘creating myself’”*

*Understanding ourselves is the key to self-awareness. It allows us to look at our thoughts, feelings, emotions and actions. On their first day of school, the students of Grade II had an ice- breaking session with their classmates. They performed ‘All About Myself’ activity where they introduced themselves to their classmates and made a welcome card. This activity not only showcased their creativity but also boosted their confidence in the new journey of learning.*

# EXCURSION REPORT

*The students of Grade 1 visited the Kiran Nadar Museum of Art in Noida on 21<sup>st</sup> April 2023. It is a must-visit destination for art lovers. It houses a vast collection of modern and contemporary Indian art. Students explored the galleries at their leisure and joined a guided tour for a more in-depth understanding of the works on display. They also enjoyed the storytelling session which was held in the museum. Overall, the museum provided a fascinating insight into the evolution of Indian art and its diverse expressions.*

Yay! Excursion  
time

Wow the  
art is so  
cool!

# KIRAN NADAR MUSEUM

## GRADE-II

Nothing beats an exciting hands-on experience to deepen learning. The magic of a field trip isn't just the subject. It's the break in routine and adventure that opens up children's mind to new things. With the endeavour to enlighten the students about the rich arts, the children of Grade II were taken to Kiran Nadar Museum.

It is India's first private museum dedicated to modern and contemporary art. The trip began with a lot of enthusiasm and vigour. The children saw the paintings by Five contemporary artists and understood the different mediums of paintings used by them. The children also attended the storytelling session. It was an enthralling experience for the young minds who are always eager to learn.

# NATIONAL GANDHI MUSEUM

## GRADE-IV AND V

Field trips disseminate student's educational experiences away from their regular school environment. K.R. Mangalam Vaishali believes that activity-based learning is substantial to place the gap between education and hands-on experience. With this intent, a field trip to National Gandhi Museum was scheduled for the students of Gr IV and V. The idea was to acquaint the students with the life and work of an extraordinary visionary M.K Gandhi. Visiting Gandhi museum was a touching experience for the students. They were moved they got to see the place where Gandhi was shot dead. They learned about Gandhi's principles such as 'Unity is a strength' 'Satyagraha' and 'Truth and Non-Violence'. A peep into this great Mahatma life surely inspired the students as well as the teachers. This memorable visit to the Gandhi museum was a novel, enriching and enjoyable experience.

# PRADHANMANTRI SANGRAHALAYA

## GRADE-VII

*“Exploration is curiosity put into action.”*

– Don Walsh

Excursions arouse the desire to learn about the world's new dimensions and open up a broad range of avenues for exploration. With the aid of virtual field trips, students are able to interact with the actual world in their own unique ways, experience new things, and gain a pristine perspective on everything. The transportation from one place to another is often a pleasant and a fun time. Endeavouring to provide an authentic and exuberant experience, a field trip was organized for the students of Grade VII & VIII on 1st May 2023 to ‘Pradhanmantri Sangrahalaya’.

The Pradhanmantri Sangrahalaya is a tribute to every Prime Minister of India since Independence, and a narrative record of how each one has contributed to the development of our nation over the last 75 years. It is a history of collective effort, and powerful evidence of the creative success of India’s democracy. The Sangrahalaya is a seamless blend which begins at the renovated and refurbished Nehru Museum building, now completely updated and technologically advanced displays on the life and contribution of Shri Jawaharlal Nehru. The new panorama includes a section which exhibits a large number of rare gifts received by him from all over the world but never put on display. Altogether, the experience was a paragon of growth, discovery and exploration for the students as they experienced the opulence and grandeur of beauty.

# NATIONAL MUSEUM

## GRADE-X

An educational excursion was organized for the students of Grade X to 'THE NATIONAL MUSEUM', on Wednesday 19th April 2023. The students learnt that the Museum has in its possession approximately 2, 00,000 works of exquisite art of diverse nature, both Indian and foreign and its holdings cover a time span of more than five thousand years of our cultural heritage. 'Mauryan Empire' , 'Inscriptions and 'Coins' were the galleries which caught the attention of our children and they wanted to know more about them. They explored the Indian historical symbols and literary characters. The students had fun exploring the heritage site.

# **EXCURSION TO EDUCATIONAL MOVIE GRADE-XI AND XII**

A movie excursion for the Grade XI & XII was organised on 23rd April'23 to add colours to their existing frolic school life. Students not only captured the scenes of the movie but also captured the memories of their school life. 'Mrs Chatterjee Vs Norway' was not just a movie but a recreational trip for the students to add wings to their thoughts. They not only relished the show but also enjoyed the scrumptious and filling snacks in the theatre. The trip was a complete delight for them as it is well said, A Picture Paints a Thousand Words
